

GLoCALL 2007

Globalization and Localization in CALL 2007

A Joint Conference of APACALL and PacCALL

Hanoi University, Hanoi, 2-4 November &
SEAMEO RETRAC, Ho Chi Minh City, 5-7 November

Call for Papers

GLoCALL 2007 invites proposals for presentations that are related to computer-assisted language learning. Proposals for Papers (35 minutes), Symposia (120 minutes) and Poster sessions should be submitted via the GLoCALL Website (<http://glocall.org>) by *1 July 2007*.

Proposals are encouraged within the sub-themes below, but are not limited to:

- the application of technology to the language classroom
- localizing Internet materials to the classroom
- using the Internet for cultural exchange
- managing multimedia/hypermedia environments
- e-learning, collaborative learning and blended learning
- emerging technologies
- fostering autonomous learning through technology
- Web 2.0 and language learning
- training language teachers in e-learning environments

Successful applicants will be notified by August 1st, 2007, although those who require an earlier decision for funding purposes may request so in the Comments area of the proposal Web form.

The conference takes the form of a 'traveling roadshow' with Organizing Committee members, plenary speakers and whoever else wishes to give presentations at both locations. Presenters from outside Vietnam are particularly encouraged to submit multiple proposals, covering both 'state of the art' themes as well as 'practical training' so that participants with varying levels of CALL experience will be able to benefit from conference participation.
